(c) the action taken to increase the capacity?

THE MINISTER OF STATE IN THE MINISTRY OF TEXTILES (SHRI E.V.K.S. ELANGOVAN): (a) and (b) As per Confederation of Indian Textiles Industry's (CITI) vision statement for 2010, the textile industry is planning to invest Rs. .1,40,000 crores in textile machinery and other capital expense in next 5-6 years in order to take a leap in annual exports of textiles & garments from US $ 12 billion to US $ 40 billion. Therefore, there is a need to increase capacity of textile machinery manufacturing sector. At present, the total installed capacity of Textile Machinery Industry in India has a potential to manufacture textile machinery worth Rs. 3050 crore, whereas the level of production during 2004-05 and 2005-06 was around Rs. 1684 crore and Rs. 2212 crore respectively. The imports of textile machinery during the corresponding period were worth Rs. 3393 crore and Rs. 7100 crore respectively. These figures show that whereas the demand has aimost doubled the share of indigenous production has come down from 33% to 24%. However, the indigenous production has also shown a growth of around 31%, but the capacity is under utilized on account of technology gap & capacity in certain areas.

(c) The Textile Engineering Industry has projected an investment of around Rs. 5000 crore in Plant & Machinery during Eleventh Plan Period and consequent increase in production to the level of Rs. 10,000 crore by 2012. To achieve this, the Ministry of Textiles is encouraging modernization of the textile industry by enhancing the allocations under Technology Upgradation Fund (TUF) Scheme. The Finance Minister, in his budget speech, has annonced that the TUFS is being extended for another 5 years from 1.4.2007.
